

PROBUS GLOBAL

An Introductory Newsletter

PROBUS GLOBAL is for PROBUS members who can get together and reap the benefits of having fun, fellowship and enjoyment on the Internet.

**How can one achieve
this with**

PROBUS Global

International Probus Network members now called PROBUS Global have been successfully communicating for over 22 years and have developed a close and friendly relationship with fellow members where they can discuss topics of interest either about local or PROBUS club matters in their town, district, region, or hemisphere while refraining from politics or religion. Even weather conditions may crop up, especially when we think of climatic changes that are occurring at the present time.

The 22 years has taken the shape in many forms with inter group emailing among members, chat groups, photographic groups, ladies groups and a topicalprobe group and we take very seriously the privacy of our members at this present time.

To join you must be a member of a probus club in your country.

To comply with Data Protection laws especially those which have just come into force in the EU in May 2018 we ask you to give your consent for your details :- Full name, email address, PROBUS Club, meeting date, time & place, Club Gender(Men. Ladies, Combined), Location of club, Additional Details.

The information you provide on the Application form will be used by PROBUS Global for purposes only in connection with the running of the organisation, which includes communicating by email.

It will never be disclosed for marketing purposes or passed to other non PROBUS bodies.

If you decide to leave the group at any time due to health reasons or bereavement then all your details will be removed.

PROBUS Global world Today.

We have at present one group of members with a membership coordinator who is responsible for all the membership duties for the group. The group contains members from many different countries

A group of members, with a vast experience in PROBUS, are working on the future of PROBUS Global to enhance the opportunities for members to network and enjoy each other's company.

Looking into the Future

A brochure has been promoted to outlay our aims & goals which you may like to read as well in a separate pdf file called PROBUS Global brochure.
